8	UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF CALIFORNIA	
10 11	CALIFORNIANS FOR ALTERNATIVES TO TOXICS,	Case No. 4:24-cv-04067-YGR
12	Plaintiff,	DECLARATION OF ALLISON G. JACKSON IN SUPPORT OF MOTION TO DISMISS
13 14 15 16 17	KERNEN CONSTRCUTION CO.; BEDROCK INVESTMENTS LLC; SCOTT FARLEY; and KURT KERNEN, Defendants.	Date: October 29, 2024 Time: 2:00 p.m. Courtroom: 1, 4th Floor Oakland Courthouse 1301 Clay Street Oakland, CA 94612 Judge: Honorable Yvonne Gonzalez Rogers Trial Date: TBD Action Filed: July 5, 2024
19	I, ALLISON G. JACKSON, declare as follows:	
20	1. I am the attorney of record for Defendants in the above-entitled action. I was also	
21	the attorney of record for Defendants in Case No. 4:16-CV-04007-YGR and 4:20-cv-01348-	
22	YGR.	
23	2. The State of California Water Resources Control Board keeps their official	
24	records of stormwater compliance online in a system called SMARTS. This is accessible to the	
25		
26	be provided.	
27	3. Attached to Defendants' Request for Judicial Notice as Exhibit A is a true and	
28	correct copy of the online 2022 SWPPP filed with the water board by Defendants. This is the	
l l		

1 2022 SWPPP referred to in the Complaint.

- 4. Attached to Defendants' Request for Judicial Notice as Exhibit B is a true and correct copy of the online Annual Report 2021-2022, filed with the water board associated with the general permit and the 2022 SWPPP.
- 5. Attached to Defendants' Request for Judicial Notice as Exhibit C is a true and correct copy of the online Annual Report 2022-2023, filed with the water board associated with the general permit and the 2022 SWPPP.
- 6. Attached to Defendants' Request for Judicial Notice as Exhibit D is a true and correct copy of the online Annual Report 2023-2024, filed with the water board associated with the general permit and the 2022 SWPPP.
- 7. I am informed and believe that since October 2022 to present, Plaintiff and/or its agents have made a litany of complaints against Defendants to multiple state and local agencies: State Water Resources Control Board; Department of Fish and Wildlife; OSHA; State Board of Industrial Relations; Air Quality Control Board; Humboldt County Planning and Building Department; Glendale Municipal Services District. With the exception of the Water Board, all of the complaints have been addressed and/or found to be wrong or unfounded.
- 8. In May of 2024, the Water Board sent a notice to Defendants with specific points to be addressed regarding potential violations of the State Water Code as it relates to Waters of the State and the stormwater held onsite at the facility.
- 9. In 2018, the State of California adopted language defining what are "Waters of the State." It did so anticipating that "Waters of the United States" (Navigable Waters) under the Clean Water Act was being narrowed by court decisions. The definition of Waters of the State, under the Porter-Cologne Water Act and State Water Code, expands state protection into areas not covered by the CWA.
- 10. It is my understanding from multiple discussions with the consultants hired by Defendants to address each specific issue in the notice, is that there is one remaining issue to be addressed which is whether or not a culvert in the North Yard (RJN Exb. A, Appendix A) is a "Water of the State" or whether it is a man-made culvert (not a Water of the State.) This issue

Case 4:24-cv-04067-YGR Document 18 Filed 09/10/24 Page 3 of 3

will be resolved by recently acquired aerial photographs from the 1950s showing the area before the culvert was dug, and then after the culvert was dug. This culvert was initially installed by the lumber mill which once occupied the site. Defendants had used the culvert for non-industrial storm water run off from an access road in the north yard. This culvert was plugged as part of the design reduction BMPs installed to prevent all discharge from the facility and is described in the 2022 SWPPP as holding the stormwater from the road and then pumping it into the holding/retention pond ("culvert plugged, water retained in pond").

I declare under penalty of perjury pursuant to the laws of the State of California and the United States that the foregoing is true and correct to the best of my knowledge, information, and belief, and that this declaration was executed on September 10, 2024, at Eureka, California.

/s/ Allison G. Jackson
